

*A Message to Mums*  
Conscious Path – Bronwyn Bay  
Pathways #44, page 6

**Talking Points**

- ❖ There was a day when children could roam and play at will. It doesn't seem that this is the case any more. As time has passed it seems kids are losing their freedom because "danger is everywhere." The media portrays humans as "despicable." How do we counter this with the positive things people do everyday?
- ❖ Have we as a whole lost sight of the people around us in this age of technology? How does this self-centered environment affect our daily lives and need for community?
- ❖ Parents and children need community. A mother needs to be able to ask for help when needed and shouldn't feel bad because of it but welcomed with open arms. Favors and help should flow freely through the community without the feeling of being indebted to someone.
- ❖ We can change this view of society and create community but, "The only way we are going to create a community that looks out for each other and trusts is to start looking out for each other and trusting." (7)
